

But I Will - 1/1

Interprété par Faith Hill.

Remember when I said the next time would be the last time?

That time came this mornin' when you came in

You always had a line to change my mind

So I guess you thought I'd just let you break my heart again

Chorus

I don't want to stop lovin' you... but I will

I don't like wakin' up alone... but I will

You're the only one who can make my heart stand still

I don't want to let you go... but I will

I could write a book on the innocent looks you're giving me

You've got one for every story you tell

I've seen it all and I'm not gonna fall

For those make believe tears

So, darlin' I will try to make it clear

Repeat Chorus

You're the only one who can make my heart stand still

I don't want to let you go... but I will
