

I've Got This Friend - 1/2

Interprété par Faith Hill.

I've got this friend who is lonely

She's afraid she'll never find the one and only

A little shy but she can be fun

If the right guy came along

Would you know someone?

I've got this friend and it sounds crazy

But he's been feeling that way too a whole lot lately

And interest, oh I'm sure he'd be

I can almost speak for him

He's that close to me

Chorus

Maybe in each other

They might find the lover

They've been missin' until now

They'd trust the judgement of

Two friends like us who care so much

Can we get them together... somehow

I've got this friend

Yeah, I think I know her

My arms can almost feel the way he'd hold her

It's like he's here when you describe him

I've Got This Friend - 2/2

And if he's anything like you I'm sure she'd like him

Repeat Chorus

Can we get together... I've got this friend
