

It Matters To Me - 1/1

Interprété par Faith Hill.

Baby tell me where'd you ever learn

To fight without sayin' a word

Then waltz back in to my life

Like it's gonna be alright

Don't you know how much it hurts

Chorus

When we don't walk

When we don't touch

When it doesn't feel like we're even in love

It matters to me

When I don't know what to say

Don't know what to do

Don't know if it really even matters to you

How can I make you see

It matters to me

Maybe I still don't understand

The distance between a woman and a man

So tell me how far it is

And how you can love like this

Cause I'm not sure I can
