

Change - 1/1

Interprété par Mest.

i said what is that your saying today
the exact opposite of yesterday
its funny how things can change
and your mind gets rearranged
tell me what i should do tell what should i say
is there even time for change?
or is it just one following anoher

when i look your way dont know what to say
cause you change you style almost every day
its funny the way things went down
cause your still stuck in this town

tell me what should i do tell me what should i say
or is it just one following another

gonna break it down and i gotta let you know
to you life is just a fashion show
thats the way i feel inside
that makes me laugh at how hard that you tried

tell me what should i do tell me what should i say
or is it just one following another

what will you do and what will you say
does it depend on what their doing that day
interest you know used to hang so low
youve lost yourself

tell me what should i do tell me what should i say
is their even time for change
or is it just one following another

tell me what should i do tell me what should i say
us there even time for change
or is it just one following another

i said what is that your saying today
the exact opposite of yesterday
its funny how things can change
and your mind gets rearranged

tell me what should i do tell me what should i say
is there even time for change
