Blow it away - 1/1

Everyday I think about what you did Livin' life ain't much with all the shit Cause I'm going insane with all of it You keep driving me crazy Always crazy, you're gonna drive me crazy You're gonna wake up one day dead inside Cause your alone, not in my life

I think about you sometimes And wanna kill you You disrespected my pride How could you do this?

All my life has always been like this Taking shit and I can't deal with this selfish bitch that's always full of it You keep driving me crazy Always crazy, you're gonna drive me crazy You're gonna wake up one day dead inside Cause your alone, not in my life

I think about you sometimes And wanna kill you You disrespected my pride How could you do this? I'm going crazy tonight And I blow it away

You want me to be like you [Repeat]
