

# Death of a playa - 1/1

**Interprété par Aaliyah.**

feat. Rashad

**CHORUS:**

You used to love them, leave them, kiss them  
Break their hearts, but now I got you in my arms  
You used to get them, trick them, diss them  
Do them wrong, but now your playa days are gone

**VERSE1:**

Everybody knew about you baby and the games you played  
Couldn't count the names, faces and numbers  
Nor the times you laid down  
But somebody knew about you baby and that you change  
It was me 'cause I could see my love would turn you around

**CHORUS:**

You used to love them, leave them, kiss them  
Break their hearts, but now I got you in my arms  
You used to get them, trick them, diss them  
Do them wrong, but now your playa days are gone

**VERSE2:**

I always say never say never boy, but you did  
That's when I took your mind and flipped the script  
Your boys talkin' 'bout you're falling off  
And that you're whipped  
But who are they to say when it's all my love I give to you

**CHORUS:**

You used to love them, leave them, kiss them  
Break their hearts, but now I got you in my arms  
You used to get them, trick them, diss them  
Do them wrong, but now your playa days are gone

**RASHAD'S RAP:**

**CHORUS:** (until fade out)
