

# Death of a playa - 1/1

# Interprété par Aaliyah.

feat. Rashad

# CHORUS:

You used to love them, leave them, kiss them Break their hearts, but now I got you in my arms You used to get them, trick them, diss them Do them wrong, but now your playa days are gone

### VERSE1:

Everybody knew about you baby and the games you played Couldn't count the names, faces and numbers
Nor the times you laid down
But somebody knew about you baby and that youchange
It was me 'cause I could see my love would turn you around

#### CHORUS:

You used to love them, leave them, kiss them Break their hearts, but now I got you in my arms You used to get them, trick them, diss them Do them wrong, but now your playa days are gone

# VERSE2:

I always say never say never boy, but you did That's when I took your mind and flipped the script Your boys talkin' 'bout you're falling off And that you're whipped But who are they to say when it's all my love I give to you

#### CHORUS:

You used to love them, leave them, kiss them Break their hearts, but now I got you in my arms You used to get them, trick them, diss them Do them wrong, but now your playa days are gone

# RASHAD'S RAP:

CHORUS: (until fade out)
