

## Never Change Lovers In The Middle Of The Night - 1/2

Interprété par Boney M.

You and I were finished  
I was through with you  
Splitting up forever  
Seemed the thing to do  
I said I can't stand you  
With your honey touch  
This time you were cheating me  
One time too much  
Just then I remembered  
That a friend I knew  
Told me one thing  
I should never do

Never never change your lovers in the middle of the night  
Everything may look so different in the early morning light  
Never never be too hasty when you're grooping in the dark  
What you're getting into may be just a lark  
Keep your cool and don't change lovers when you're feeling sorta high  
Sorta big and high and mighty without really knowing why  
Let your heat wear off a little, give your man another chance  
And don't fall for someone else's song and dance

Sure there was this guy  
Right next to me  
Mine just for the asking  
He said he would be  
But to leave my man  
Seemed to me all too strange  
And I'd say that I'm glad  
I didn't make the change  
Now our life is almost  
Like a Paradise  
Let me pass on to you  
This advice

Keep your cool and don't change lovers in the middle of the night  
You may feel a strong temptation, the vibrations may be right  
But who knows what's gonna happen, you may simply lose your cool  
When you find it, you'll find out you were a fool  
Never never change your lovers under any midnight spell  
Take it easy, slow and easy, everything will turn out well  
Let the sunshine of a new day, and don't move while you're uptight  
Changing lovers in the middle of the night

Never never change your lovers in the middle of the night  
Everything may look so different in the early morning light  
Never never be too hasty when you're grooping in the dark
