

## It's a shame - 1/1

**Interprété par Anouk.**

It's a shame, the rules change not the game  
Such a shame, It's a same  
Now everything is in vain  
All in vain, it's such a shame

Could it be true, that there's nothing left to do  
For me and you, can't be true  
We all can't be such fools  
Could life be so cruel  
Could life be so cruel

Maybe, I don't even try fearing what I'd find  
Guess I am a number on the line  
Could you please tell me why  
We're on the same line, and we're fallin' behind on life

Life is great, I'm walking in the sun and everything is cool  
Yeah it's true, there's so much we can do  
It feels so right  
Yeah, it's all right

Maybe, I don't even try fearing what I'd find  
Guess I am a number on the line  
Could you please tell me why

Baby, I don't even wanna try fearing what I'd find  
Guess I am a number on the line  
Could you please tell me why we're on the same line and  
Fallin' behind  
Fallin' behind on life
