

## Legacy - 1/1

**Interprété par Papa Roach.**

Dead president, fuck the president  
Mansons strive for power while I work to save my residents  
he owns you even though he never told you  
mark of the beast on ya hand now he owns you  
thrown down to the bottom level  
ruled by the fist and the fist is the devil  
I medamorphisize and make myself level  
we are the future we are right now right now  
I'm taking a stab at the sick, sick, sick  
I know what evil is and evil could suck my dick  
like sam hain and god ain't no joke  
ya better watch ya neck cause ya might get choked  
I'm dodgin arrows from the dark side everyday  
and I'm a main target cause of what I say  
I'm dodgin arrows from the dark side everyday  
you sink we swim we rise you fall we met our fate together  
I was here from the start and I'll be here in the end legacy  
legacy
