

Cruel - 1/2

Interprété par Toto.

What you've got, you have to steel
That's the reason
For how you feel
Consedrin' what you've done so far
I'm rather amazed
At where you are

Lift your head up, baby
Pull yourself together
Nothing's worse than dying slow
There's no reason, darlin',
Reason whatsoever
That we can't end this game of touch and go

Refrain:

It's such a cruel world
When you have to thik twice,
And you're caught up in this roundabout
It's such a cruel world
When your back's against the wall and there's no way out

You're not givin' it up,
But you're givin' it out
Seems too me,
You got a little too much doubt
Augmentation,
Is what you need
Your generosity
Looks alot like greed

You might call me crazy
If you don't understand it
There's no way for you to know
You say love is hazy,
And you don't demand it
But can't we end this game of
touch and go

Refrrain

You've got that kind of love, It flows like a fountain But sometimes love can be unkind My kind of love, you know It's higher than a mountain But love can be so hard to find

Cruel - 2/2

Lift your head up, baby Pull yourself together Nothing's worse than dying slow There's no reason, darlin', Reason whatsoever That we can't end this game of touch and go

Refrain

It's such a cruel world It's such a cruel world out there baby It's such a cruel world It's such a cruel world And there's no way out

Get you right Wanna get you right

Oh I

I see darkness in your future baby In a tunnel black as night Oh I See a rich man with his hand out baby Know a seer with no sight Watch fire burn those bridges baby Feel a wrong turn into right
