

## One road - 1/1

**Interprété par Toto.**

Time .....

is the enemy of a young man dreams

I 'm standed ....

In the heartland, or soo it seems

I 'm hitching a ridr for a chance at the good life

I 'll have my own place. Out on fifth avenue

I 'm leavin' this time gonna walt on that fine line

I 'll be the firsst one who finally breaks through

Refrain :

One road to the promise land

I hane to get there any way I can

One road to the promise land

Gonna find out jusst who I am

Freedom....do you know what I mean

Flatlands... are all I 've ever seen

Stuck in a small town where you live,

then you die

Ain't nothing but fools workin'

nine until five

I 'll sleep in the subways till

I get what I need

I 'm gonna stay here,

just lie here and bleed

Refrain

One road to the promise land

I thought by now I 'd be a different man

One road to the promise land

Guess I found out ... just who I am
