

## Only the children - 1/1

Interprété par Toto.

We keep hurting each other  
When word can't be easily said  
No understanding or reason,  
Just fear and confusion instead  
We need hope for the future  
And the young need a chance to survive  
No one knows the pain that I felt by innocent  
They're fighting to stay alive  
Can no one see the tears in their eyes

Refrain :

Only the children  
Only the children cry, only the children

Why do those who have plenty ignore those with  
nothing at all  
Why must the ones just beginning  
Stand with their backs on the walls  
They keeps asking for answers  
And we keep on telling them lies  
The only want to understand what they feel inside  
The hunger that tears them apart  
It's the one thing they've known from the start

Refrain

(Only the children cry)

(Break)
