Urgently In Love - 1/2

Interprété par Billy Crawford.

(Featuring Nona Hendryx)

He's urgently in love

(Every time I see you)

Hey what you doin, what you doin to me?
I can have any girl in the world I want
They're all falling at my feet, uh yeah yeah
But you go and ignore me, every move that I make
When I try to catch your eye, you're off on a flight
How much more can I take?

He's urgently in love, got to have only her
Won't go with nobody else
He's urgently in love, got to have no one but her
No nobody else

Every time I see her
Her rhythm makes me shiver
Down my spine
It's a definate decision
Got to have her got to hold her
Gonna make her mine

Hey what you doin, what you doin to me?
I can't read a book, I can't watch TV
'Cause you're all that I see, uh yeah yeah
I never wanted to fall in love with you
But to tell you the truth, girl
All I wanna do is take care of you
Let's ride my choo choo

He's urgently in love, got to have only her
Won't go with nobody else
He's urgently in love, got to have no one but her
No nobody else

Every time I see her
Her rhythm makes me shiver
Down my spine
It's a definate decision
Got to have her got to hold her
Gonna make her mine

Every time I see her
Her rhythm makes me shiver

Down my spine
It's a definate decision
Got to have her got to hold her
Gonna make her mine

He's got to have her, he's got hold her
He's got to have her, he's got hold her

What you doin to me now?

(It's a definate decision)

He's urgently in love, got to have only her
Won't go with nobody else
He's urgently in love, got to have no one but her
No nobody else

(Every time I see her)
He's urgently in love, got to have only her
Won't go with nobody else
(Down my spine)
(It's a definate decision)
He's urgently in love, got to have no one but her
No nobody else

(Gonna make her mine)

(Every time I see her)
He's urgently in love, got to have only her
Won't go with nobody else
(Down my spine)
(It's a definate decision)
He's urgently in love, got to have no one but her
No nobody else

(Gonna make her mine)
