

## Straight Up - 1/2

Interprété par Chante Moore.

Yeah, oh  
Uh, uh, uh  
You know what it is (ooh)  
When your head go back and forth (ooh)  
So So Def, uh (ooh)  
Chante, 2k(ooh)  
Baby come on, come on, come on

Straight up I can love you forever yo  
Cause you're the kind of guy I can settle for  
I'm not the type to love you and let you go  
Let me know it's now or it's never yo  
Cause I know them other girls try and do you in  
But I'm not the average girl you've been fooling with  
Cause those other females are counterfeit  
But everything all up here's legit

It's like this, like this  
Like that baby  
Put the other girls way to the back baby  
So you know I'm not just talking that stuff baby  
Call me up and let me know what's up baby  
(What's up?)

Here's the number to my cell  
Now hit me on the hip  
Here's the number to my crib  
Where I really love  
Straight up  
I'm not thinking 'bout them other chicks  
Straight up  
They ain't even coming close to this

Here's the number to my job  
Or call me in the whip  
Now how many chicks  
You know come with this  
Straight up  
Cause I'm tryna put you on to this  
Straight up  
And I'm not just talking it

So tell me are you spoken for  
Cause I don't see a ring on your finger boy  
Excuse me if I'm bold with my question now  
But I'm not looking for a hit and run  
Don't tell me how those other girls used to be

## Straight Up - 2/2

Just think about you getting used to me  
I'mma show you everything you tryna see  
I'mma put you right where you need to be

It's like this, like this  
Like that baby  
Put the other girls way to the back baby  
So you know I'm not just talking that stuff baby  
Call me up and let me know what's up baby  
(What's up?)

Here's the number to my cell  
Now hit me on the hip  
Here's the number to my crib  
Where I really love  
Straight up  
I'm not thinking 'bout them other chicks  
Straight up  
They ain't even coming close to this

A lot of girls won't do the things I do  
A lot of girls won't say the things I say  
Know that all of this is true  
Talking 'bout me loving you  
(Please believe)  
Boy I do  
Coming straight up asking me  
When you know what I'm about  
With a game sweeter than can be  
So baby won't you check me out  
(Ooh, ooh-oooh-oooh, ooh, ooh)  
Y'all know what it is  
When you're head go back and forth  
(Ooh, ooh-oooh-oooh, ooh, ooh)  
Y'all know what it is  
When you're head go back and forth  
(Straight up, straight up, what's up?)

Here's the number to my cell  
Now hit me on the hip  
Here's the number to my crib  
Where I really love  
Straight up  
I'm not thinking 'bout them other chicks  
Straight up  
They ain't even coming close to this
