Happy - 1/1

Interprété par Brandy.

I don't even know How it got this way When I first met you I never thought your love was true But I'm glad I saw just what was in store All the while you plan to be my man Now I'm in love with you

You make me happy You make me feel so good With the things you do for me Oh baby can't you see that You make me happy You make me feel so good With the things you do for me Oh baby, baby, baby

In search of happiness Tryin' to find someone Who can make my life so complete baby If I only knew that someone was you boy There would have been more happy days So don't you go away

No one can make me feel this way You always seem to brighten up my day
