

Everything's gonna be alright - 1/2

Interprété par Sweetbox.

I watch the western sky
The sun is sinking
The geese are flying south
It sets me thinking

I did not miss you much
I did not suffer
What did not kill me
Just made me tougher

I feel the winter come
His icy sinews,
Now in the firelight
Tha case continues

Another night in court
Tha same old trial
The same old questions asked
Tha same denial

Tha shadows close me round
Like jury members
I look for answers in
The fire's embers

Why was I missing then
That whole December?
I give my usual line,
I don't remember

Another winter comes
His icy fingers creep
Into these bones of mines
These memories never sleep
And all these differences

A cloak I borrowed
We kept aor distances
Why should it follow that
I must have loved you?

What is the force that binds the stars?
I wore this mask to hide my scars
What is the power that pulls the tide?
Never could find a place to hide

What moves the earth around the sun?

Everything's gonna be alright - 2/2

What could I do but run and run and run?
Afraid to love, afraid to fail
A mast without a sail

The moon's a fingernail
And slowly sinking
Another day begins
And now I'm thinking

That this indifference
Was my invention
When everything I did
Sought your attention

You were my compass star
You were my measure
You were a pirate's map
Of buried treasure

If this was all correct
The last thing I'd expect
The prosecution rests
It's time that I confessed
I must have loved you
I must have loved you
