

Candy - 1/2

Interprété par Ash.

Candy, you're such a joy to me
Innocent nights, I cannot sleep
Oh candy, sweetest remedy
Only you can ease my troubled dreams
Angel, oh people ought to see
Caught up in bitterness and ?
Oh candy, dark and lonely days
I hear your voice whispering my name

Don't you know it's alright to be alone
You can make it on your own, yeah
Don't you know it's alright to be alone
You can make it on your own

Angel, of the summer stars
I will always see you safe from heart
Oh candy, we'll never be apart
Night & day you're constant in my heart

Don't you know it's alright to be alone
You can make it on your own, yeah
Don't you know it's alright to be alone
You can make it on your own
Oh candy, my dreams, oh candy, my dreams
Candy, my dreams, oh candy

Candy, purest driven snow
Come to me, you are not alone
Oh candy, you're everything to me
You and I will always be free

Don't you know it's alright to be alone
You can make it on your own, yeah
Don't you know it's alright to be alone
You can make it on your own
It's alright to be alone
Don't you know it's alright to be alone
You can make it on your own, yeah
Don't you know it's alright to be alone
You can make it on your own
Don't you know it's alright to be alone
You can make it on your own, yeah
Don't you know it's alright to be alone
You can make it on your own, yeah
It's alright to be alone
You can make it on your own, yeah
It's alright to be alone
