

## You'll know you were loved - 1/1

**Interprété par Friends.**

Some things come to he who waits  
But all is lost if you hesitate  
And I was never one to wait  
You'll know you were loved

You can hire great lawyers you can speak to your friends  
You can say "he did this and that" - some things don't change  
Unwrap the present and burn the remains  
But you'll know you were loved

Now you take Rosco he ain't much  
People say things are ruined after his touch  
It's like a tar was driven from his brush  
But you'll know you were loved

Or Stan and Jake emerging from your past  
From those love affairs that didn't last  
But me, I'll give it my last gasp  
And you'll know you were loved

A parrot, a donkey, a dog or bone  
Some of us never had a home  
And if we did we left it long ago  
And didn't know we were loved

Empty as a wooden clock  
Left in the woods at 12 o'clock  
Insides all of us could have spring his pop  
But you'll know you were loved

Even when you sleep at night  
Inside, your heart will cry  
You can never say goodbye  
When you know you were loved

Underachievers of the world unite  
You have nothing to lose except your fright  
And together we can perhaps pass a night when  
You know you were loved  
And together we can perhaps pass a night when  
You'll know you were loved
