

Dream Baby - 1/1

Interprété par Bananarama.

Think of me while you're walking down the street
Scheming ways for us to meet
I know that you'd like to fool around
You know I'm the hottest thing in town
You're getting closer
Hot on my trail
I'm the queen bee baby
So you just can't fail

(Refrain)

Coz I'm your dream dream baby, I'm your sweet thing baby
You're always worried that I'm not gonna stay
Coz when the dreaming ends you know I'll fade away

Haunting you every day and night
Haunting you till the early morning light
And you want me if you know what's right
I'm your No. 1 lady
Sheer delight
You're getting closer, hot on my trail
I'm the queen bee baby
So you just can't fail

(Refrain)

Coz I'm you're dream dream baby,
I'm you're sweet thing baby
You're always worried that I'll split the scene
Coz like all good things I'm fading with your dreams
I can read from your eyes that you like my style
Imagination's really running wild
If you give it a try
You know it could be
So come on little baby won't you follow me
