

## One hot minute - 1/2

Interprété par Red Hot Chili Peppers.

I was riding  
Riding on my bike  
Me with my friend  
We're so alike

Am I all alone

She said all we  
Have is this  
We just had to stop  
And share a kiss

Am I all alone

One hot minute  
And I'm in it come and get it  
And I'm in it come and get it  
And I'm in it come and get it  
If I chase it  
I might waste it  
Come and get it

Am I all alone

Sitting in the fire  
Get along and have some fun  
Floating to be higher  
Maybe I'm your special one  
Silent testifier  
Breathe the moon  
And eat the sun  
Sitting in the fire

A tiny wink is all  
All we have  
No it's not much more  
But don't get mad

Am I all alone

Close your eyes  
And click your heels  
Can you believe  
How good it feels

Am I all alone

## One hot minute - 2/2

One hot minute  
And I'm in it come and get it (3 times)  
If I chase it I might waste it  
Come and get it

Am I all alone

Three lbs. of love  
Inside my skull  
A million more lives  
It's never dull  
Just a few times spun  
Spun around the sun  
A couple more or less  
And then we're done
