

## This Temptation - 1/2

**Interprété par Blue.**

You wanna get it on right now I see  
I just wanna say that's cool with me  
But now the moment's come  
I've never been good at this temptation

From the first time it felt so right  
I knew that right here is where I belonged  
With that black dress I have to confess  
My intentions may have been wrong

(Hold on) this ain't the right time  
(You know) there's doubt in my mind  
(Don't want) to rush this baby, one night's not my style

You wanna get it on right now I see  
I just wanna say that's cool with me  
Won't you take your time  
Leave it just a little to imagination  
I've been waiting for this night so long  
And it's been really hard just holding on  
And now the moment's come  
I've never been good at this temptation

This temptation  
Oh this temptation  
This temptation  
I've never been good at this temptation

Every night, you've been on my mind  
Could you be the one I've been waiting for?  
'Cos your sweetest kiss,  
Oh I just can't resist  
That's the kind of thing you've got me beggin' for more

(Hold on) this ain't the right time  
(You know) there's doubt in my mind  
(Don't want) to rush this baby  
One night's not my style

You wanna get it on right now I see  
I just wanna say that's cool with me  
Won't you take your time  
Leave it just a little to imagination  
I've been waiting for this night so long  
And it's been really hard just holding on  
And now the moment's come  
I've never been good at this temptation

## This Temptation - 2/2

I know that we've both been here before  
That's why I really wanna be sure  
But now that the moment's here  
I've never been too good at this temptation

You wanna get it on right now I see  
I just wanna say that's cool with me  
Won't you take your time  
Leave it just a little to imagination  
I've been waiting for this night so long  
And it's been really hard just holding on  
And now the moment's come  
I've never been good at this temptation

So long  
Get it on  
Never been good at this temptation

You wanna get it on right now I see  
I just wanna say that's cool with me  
Won't you take your time  
Leave it just a little to imagination  
I've been waiting for this night so long  
And it's been really hard just holding on  
And now the moment's come  
I've never been good at this temptation
