

We did it - 1/2

Interprété par Missy Elliott.

We made love, now you gone
Now you don't want to claim me no more
Told your boys, you never knew,
You never kissed or held me in your arms
How dare you even leave, leaving like I'm lying on you
Then you said it's all about me
I believed, cause you made believe

HOOK 1:

If you did it then you did it,
Boy you don't have to lie, ome you hit
Then you hit it, I'm your chick on the side
I just forget it, son admit it, don't you
Don't you dare try, you done hit it
You done hit it more than, more than two times
(Repeat)

You changed your phone, you won't call me back,
Now I can't even get in touch with you
See how you do, I never knew
That you would deny his love I'm serving you
That ain't cool, I'm hating you,
Cause you was the first to make a move
Now you say you never knew,
You make your boys think that I'm some crazy fool

Why must you lie, I drove your whip
You told me meet you outside, we had some blunts
Getting high in your ride, getting mushy want some pussy

You was with it, that was all on your mind
Then you hit it, can't admit it then you wasting my time
