

Endless life - 1/1

Interprété par The verve.

Drink the water to ease my pain
Nights like these I only read about
Nights like these I only dreamed about
As we turn, as we rolled
I felt something strange
I felt you
Saw little lamps
Something so bright
I think it was the real thing
I think it was the real thing
Come back, come back and get me
Get me a life
Get me a life, I've seen everything
Through these damn life
Through these damn life
I'm falling, I 'm falling
falling , falling, falling
In the endless life
Endless life
