

Catching the butterfly - 1/1

Interprété par The verve.

As though you were born
And so you thought
The future 's ours
To keep and hold
A child within
Has healing ways
It sees me through
My darkest days
I 'm gonna keep catching that butterfly
In that dream of mine
I 'm gonna keep catching that butterfly
In that dream of mine
In my lucid dreams
In my lucid dreams
Walking Now
Through life no fun
I want to feel
I want to run
I 'm gonna keep catching that butterfly
In that dream of mine
I 'm gonna keep catching that butterfly
In that dream of mine
In my lucid dreams
In my lucid dreams
I 'm gonna keep catching that butterfly
In that dream of mine
Keep catching that butterfly
In that dream of mine
I 'm gonna keep catching that butterfly
In that dream of mine
I 'm gonna keep catching that butterfly
In my private dreams
In my private dreams
In my private dreams
My lucid dreams
My forgotten schemes
I see through you
You see through me
I see through you
You see through me
Be with me
Be with me
I see through you
You see through me
I see through you
You see through me
