

Precious stone - 1/2

Interprété par Richard Aschcroft.

Write the book and then we find the pen
Used to feel like the walls are closing in
You made decisions that you never thought you could
You've been crying in the night, yeah, yeah, yeah

You precious stone
Washed Up, you don't know
Gonna clean you up, make you feel
Like you know the answer

I've got the keys to the jail yeah (with this love)
A little love never fails yeah (overcome)
I've got the keys to the jail yeah (with this love)
A little love never fails yeah

You've been all the things that you never thought you were
You saw the devil in the night and it haunts you
Don't think about the things you can never answer
You gotta live, you gotta learn how to to love

I say,
You precious stone
Why we're stuck, you don't know
Gonna clean you up, make you shine, make you gleam yeah
You precious stone
Why we're stuck, you don't know
Gonna clean you up, make you feel
Like you know the answer

I've got the keys to your jail yeah (with this love)
A little love never fails yeah (overcome)
I've got the keys to your jail yeah (with this love)
A little love never ever fails yeah
You're the one
With this love
Overcome
With this love

You precious stone
Washed up, you don't know
Gonna clean you up, make you shine, make you glow
You precious stone
Washed Up, you don't know
Gonna clean you up, make you shine, make you whole
You precious stone
On the beach, you're alone
Gonna clean you up, make you shine, make you gleam yeah

Precious stone - 2/2

You precious stone
Washed Up on the beach yeah
Gonna clean you up, make you feel
Like you know the answer
