

So I see - 1/1

Interprété par Lene Marlin.

So I see it, it's right there in front of me
What's a matter, oh you cannot see
Feeling like I did when you blindfolded me
So I hear it, for a brief moment there I thought I knew
All these things they were far, far from true
But I guess you cannot hide from the truth

So I see right through you
And I know what you've been up to
So I see right through you
And I know the things you do

So I see it, it's right there in front of me
Oh, I'm sorry, you did not wanna see
Acting like I did when you betrayed me
So I hear it, they didn't have to scream it in my head
They just could have whispered it instead
Cause I am already over it now

So I see right through you
And I know what you've been up to
So I see right through you
And I know the things you do

So I hear it, they didn't have to scream it in my head
They just could have whispered it instead
Cause I am already over it now

So I see right through you
And I know what you've been up to
So I see right through you
And I know the things you do

So I see right through you
And I know what you've been up to
So I see right through you
And I know the things you do
