

The way we are - 1/1

Interprété par Lene Marlin.

I watch you growing sometimes I see myself in you
It can be scary but kinda funny too
I hear you talking a lot of similarities
Your choice of words
And all the fantasies

Just the way we are
I guess you've seen it now
A mirror of ourselves sure makes us weird
Falling down
From a mountain of frights
What's there to hold on to?

The way you make us all smile and the despaire when you just won't go to sleep
You could have me walking a mile to make you smile still it's not really a weep
I know you fooled me a million times
I just can't help it
Don't know why

Just the way we are
I guess you've seen it now
A mirror of ourselves sure makes us weird
Falling down
From a mountain of frights
What's there to hold on to?

I know you hate it but they really have to do what they do
You're crying out your wishes I understand yet they don't have a clue
