

## Rock Steady - 1/2

Interprété par No Doubt.

Our love is rock steady  
Rock steady, rock steady, rock steady  
Our love is rock steady  
Rock steady

Love is like a punishment  
Homegirl here to represent  
So innocently you seem to come my way  
While tinkerbelle and cupid play

They sit there and they laugh  
I sit here and i can't believe my eyes  
You found me at last  
But we're too human to see the way we'll agonize

A real love survives  
A rock steady vibe  
A real love survives  
A rock steady vibe

Rock steady, rock steady  
Our love is so rock steady  
Rock Steady

Steady now stop rocking it  
It's a delicate environment  
Retired but sleeping is our shanty love  
Be careful now, don't wake it up

It's never gonna last  
It's never gonna make it back alive  
So now can we relax?  
I really hope that we will actually survive

A real love survives  
A rock steady vibe  
A real love survives  
A rock steady vibe

It's never gonna last  
It's never gonna make it back alive  
So now can we relax?  
I really hope that we will actually survive

A real love survives  
A rock steady vibe  
A real love survives
