

## One Kiss - 1/2

**Interprété par B2k.**

She was so sincere  
The way she grabbed my hand  
And introduced herself  
Like no one else has done before  
And I can't lie  
I was hypnotized  
By the smile, and the talk and the sound of the walk  
And when she tried to kiss me  
I just stopped  
And said to myself this can't be real  
Light to my mind but my heart it could  
Could feel something was wrong  
Don't worry (that's what she said)  
Now I  
Look back on the night  
I remember the things  
That made me call at night  
And to think I portrayed me for one kiss

Refrain  
One kiss for all my trust  
One kiss for all my love  
One kiss cause me to break  
One kiss  
I just hate it  
One kiss  
One kiss  
One kiss  
That's where I started feeling  
One kiss felt so good  
But I shoulda had that kissed

I was so far gone  
She could do no wrong  
Until I caught her in the act  
Now I get it all  
How could I not see  
That eventually she would break my heart  
Where did it all start  
It started with a little bitty kiss

Refrain

A one step for kissing quietly  
How could I be so blinded  
Shoulda read  
Instead

## One Kiss - 2/2

I made it easy  
But I won't let my heart get break  
It was all lesson learned  
And the lesson learned was taught to me by one kiss
