

Baby Girl - 1/1

Interprété par B2k.

There I times when I look in your eyes, I see the love that wish I, I see the joy inside.
But I didn't see the feelings you had and now you saying goodbye cause your love is died.

And all I can think about is you the way you say you love me too and everytime I close my eyes I see your face my love can never be risting you can never be replays.

Refrain x2: Baby girl why don't you come back to me, why don't you love me anymore
Baby girl you know I still care for you, you know I will love you forever more.

There I times when I kiss you goodnight, I feel the love that wish I, I feel the joy inside.
But I didn't feel what you try to I and now you saying goodbye cause your love is died.

And all I can think about is you the way you love me too and everytime I close my eyes I see your face my love can never be replays.

Refrain x2
