

Everybody Wants Ya - 1/1

Interprété par S Club 7.

I get this feeling as you walk away
A million hearts will break in two
But they don't know the games that you can play
So they always follow you

Every time you move, everybody grooves
I can't help feeling it's alright
You just gotta walk see the people talk
I like to watch you party

[refrain]

Cos everybody wants you
When everybody sees ya
The wolrd is full of dreamers
But I'm a great believer
and i'm no fool, cos I got you

I see the way you act like you don't know
There's something bout your attitude
And it don(t matter how far you go
Cos I'm the one that's going home with you
You just gotta bump, see the people jump
I can't help feeling i'ts alright
When you do your thing evrebody sings
They like to watch you party

[refrain]

Cos everybody wants you
When everybody sees ya
The world is full of dreamers
But I'm a great believer
And I'm no fool, cos I got you

I just wind you up and let you go
And I watch you in wonder
To see the look upon your face
I'd say you already know

[refrain]
