

Right Here Waiting - 1/1

Interprété par Blue.

Got my feet back on the ground,
Look for something new,
There's been too much goin' down,
Don't know what to do.

They say that what you never had you never miss,
So tell me why I never knew a love like this.

Chorus

Right here (nothing else matters)
Waiting (things are getting better)
You're the (only thing that matters)
One thing (I'm never givin' up).

Should have seen it from the start,
That you were always there.
Ain't no tearing us apart,
I can't believe you're here.

They say that what you never had you never miss,
So tell me why I never knew a love like this.

Chorus

I'm needing in my life,
It's taken time for me to realise,
How come I never saw you,
Standing right before my eyes?

Right here waiting

They say that what you never had you never miss,
So tell me why I never knew a love like this.

Chorus

I'm needing in my life,
It's taken time for me to realise,
How come I never saw you,
Standing right before my eyes?
