

# Never Give Up - 1/1

**Interprété par Liberty X.**

Never Give Up

We were looking round

Waiting for the right time

Everybody saying careful what you do

You've got everything to prove, they were saying

You gotta do it now cos if you don't you know you're gonna fade away

You gotta listen to what we say

Gotta realise you don't know the same like I do

We drew the line

Used our own minds

Chose not to take their advice

We didn't know,

Which way to go

So we just followed the signs

Never let them get you down

You've got to turn around and

Find your own way to it

You know its up to you

To pull yourself through

All the troubles it's a struggle

But be strong and you'll do it
