

# It's coming down - 1/1

**Interprété par Cake.**

it's coming down it's coming down  
it's raining outside you've nowhere to hide  
she's asking you why you think it's funny  
it's coming down it's coming down  
she's leaving your house she had to get out  
she's mad and she'll take her mattress with her

it's coming down it's coming down  
it's coming down it's coming down  
it's coming down it's coming down  
it's coming down it's coming down  
it's coming down

you lie on the floor she's slamming your door  
she's gone and she's wearing your red sweater

it's coming down it's coming down  
it's coming down it's coming down  
it's coming down it's coming down  
it's coming down it's coming down  
it's coming down
