

Colder (I want you no more) - 1/1

Interprété par Jay Jay Johanson.

She said it's over
She said I want you no more
Over your shoulder
And out through that door
She's turning colder
And I'm growing unsure
Nobody told her
I've been through this before
Ever since the day
She said these words to me
I've had a hard time
Thinking logically
All I asked was
Why can't you please explain
For whatever reason
You left me in this pain
I just can't stand you anymore
She said to me
I really did appreciate
Her honesty
Even though it's not
My habit to intrude
I'm gonna find out
Who's sleeping next to you
