

The future song - 1/1

Interprété par Vanessa Paradis.

Life brings on unexpected changes
But we must carry on despite it
Are we gonna try
Are we gonna make it
Why is love so very hard
Why is peace so very far
i can't make it

The future of our space and time
is not gonna wither and die
The future of our space and time
Is not gonna say goodbye

We can't control all our situations
And we can't console underprivileged
Nations
So why don't we try
To make more smiling faces
We're so full of disregards
We feel pain within our hearts
I can't take it

The future of our space and time
is not gonna wither and die
The future of our space and time
Is not gonna say goodbye

So I'm calling out
Out to all he races
We can't gain control
Without communication
And we need to learn for future generations
There is a future in our stars
There is beauty that is ours
We're gonna make it

The future of our space and time
is not gonna wither and die
The future of our space and time
Is not gonna say goodbye
