My dream is driving me to a land I have already seen,  
I'm falling and I'm falling again...  
My mind is guiding me to a land of eternity,  
I'll come here soon again....(x2)

I just want to come back home,  
I never feel alone away from my bones,  
I'm falling and I'm falling again,  
I'll come here soon, again...
