

# Phoenix from the flames - 1/1

**Interprété par Robbie Williams.**

Silence shields the pain  
So you say nothing  
Feel they've rigged the game  
And your done with lovin'  
Only you can see the darkness in the  
nothern line

Phoenix from the Flames  
We will rise together  
They will know our names  
Can you feel it  
Shelter me from pain  
I always wanna feel this way  
Oh yeah  
Just like a phoenix from the Flame

Wish they'd take you back  
'Cos you miss heaven  
Too many bags to pack  
So leave them where they are tonight  
You're flying on a golden dream

## CHORUS

Everybody's talking nobody's listening  
Too busy thinking about what you've  
Been missing  
Everybody said you're gonna take it  
Too far baby now  
Well come on  
When you're done with lovin'  
It comes down to nothing  
Can you feel it x3

## CHORUSX2

Why don't you come any deny it  
You know you can't deny it  
I always wanna feel this way  
Just like a Phoenix from the Flames
