

# t might as well stay monday (from now on) - 1/1

Interprété par Cher.

Here it is again Monday morning  
And I really got the blues  
But it don't much matter  
I got no need to smile  
And I don't think I will for quite a while

Chorus:

So it might as well  
Stay Monday from now on  
'Cause it seems that  
The only one I ever loved is gone  
And it just might as well  
Stay Monday from now on

Go away mister sun I can't use you  
Brighten someone else's life  
Let the darkness hide me  
And carry off my pain  
For there's nothing you can do  
Nothing you can do, nothing you can do  
To make things change

(chorus)

Let the darkness hide me  
And carry off my pain  
For there's nothing you can do  
Nothing you can do, nothing you can do  
Nothing you can do to make things change

And it might as well  
Stay Monday from now on  
Might as well stay Monday  
From now on
