

## Melody - 1/1

**Interprété par Cher.**

Melody you're my oldest friend  
I can talk to you  
What a day it's been  
Out there in the madden crush  
Another day's gone dying in the dust

Melody, listen for the phone  
While I change my clothes  
He knows by now I'm home  
Three days waiting took its toll  
This trying to type and crying's getting old

Melody, remember long summer days  
Playing grown ups in the city  
Mama saying sweet dreams sleepy heads  
Tucked in bed with you, my favorite dolly

Oh Melody, with your raggedy charms  
I have looked for love in a stranger's arms  
Scared of going home, for what they'll see  
You know mama eyes could always look right through  
And daddy, he won't be so proud of me  
No, they won't understand like you, Melody
