

I'll never stop loving you - 1/1

Interprété par Cher.

One day I'll stop breathing
My heart'll stop beating
I won't see your face again
This flesh and blood is weak
Life isn't ours to keep
Sometime it has to end

In time even memories fade away
With time you might live
To forgive and forget
The mistakes that I made

Chorus:

I broke some promises
Sometimes I lied to you
But one thing will always be true
I'll never stop loving you

Falling from your grace
You'll never be replaced
God knows how hard I tried
But it just ain't no use
I thought I could shake you loose
I'm still torn up inside

In time even memories fade away
With time you might live
To forgive and forget
The mistakes that I made

(chorus)(repeat)

No oh, no, no, no
I'll never stop loving you
Loving you...
