

Bron with the hunger - 1/1

Interprété par Cher.

Hear the coyote howl
he's found his prey at last
In one moment of weakness
the chase is over so fast
He celebrates his kill,
no mercy in his eyes
When you're born with the hunger
the hunger never dies
Midnight is on the prowl
and I hear it call my name
Danger lurks in the shadows
but it's all part of a game
Until I quench this thirst
I will not close these eyes
When you're born with the hunger
The hunger - never dies
You and I, we're the same
we both carry this flame
to the depths of our souls
Once this fever awakes
we can never escape
It's beyond our control
We're both born with the hunger - born with the hunger
Temptation bites your lip
One kiss ignites the fire
So begins the seduction
as we succumb to desire
Your body aches for more
Why are you so surprised
When you're born with the hunger
The hunger never dies
When you're born with the hunger
The hunger - it never dies
it never dies
When you're born with the hunger
It never dies
When you're born with the hunger
Ooh it - never dies
He celebrates the kill
You're born with the hunger
It never dies
