

## Strangers - 1/1

**Interprété par Atomic Kitten.**

Everything you do says you're leaving me  
Everything you say shows you don't believe in me  
How was I supposed to know this was gonna hurt a soul  
You and I are strangers in our home  
You and I are strangers in our home

Everything I feel proves there's nothing left in me  
Everything I hear takes away the breath in me  
How was I supposed to know this was gonna hurt a soul  
You and I are strangers in our home  
You and I are strangers in our home
