

Baby I'm Losing You - 1/1

Interprété par Bee Gees.

Ev'ry time we kiss I feel that something's missing inside
Ev'ry little glow for me has simply died
What has happened to the love
Happened to the love , the love we knew
Baby I'm losing you (losing you), baby I'm losing you

Even in my sleep I feel the heartache creep in my dream
All the love you had for me is gone it seems
Oh what have you done to me
Made it plain to see that we are through
Baby I'm losing you (losing you), baby I'm losing you

I hate to say goodbye to you
But darling what am I to do
Just a toy to play , when you are through , you throw away
Not me

If you don't need me now I'll get along somehow in my pain
Wish little boy, go find another toy for your games
And what's happening to me , I'll get by you see
Now we are through
Baby I'm losing you (losing you), baby I'm losing you
Baby I'm losing you (losing you , baby I'm losing you
