

When I found you - 1/2

Interprété par Britney Spears.

I believe we all have one true love
Somewhere in this world, I do
When it seemed all my dreams were falling through
That's when I found you

I believe for every heart that whispers in the dark
There's a ray of light somewhere shining through
It was sink or swim when the tide came in
I found myself

When I found you
I found the closest thing to heaven
That's in you
I found the deepest love I knew
Oooo oh, I believe, yes its true
I found myself when I found you, Ooh yeah

I believe for every door that's closin
For every heartbreak there's hope for something new
From the ashes right, I glimpse a paradise
It still flickered in your eyes

When I found you
I found the closest thing to heaven
That's in you
I found the deepest love I knew
Oooo oh, I believe, yes its true
I found myself when I found you

A life unfolds
No one knows
I found love once
Just a tingling of the skin
I felt so alone, all alone
More than you could ever know
You share deeper love
Sweet love

When I found you
I found the closest thing to heaven
I found the deepest love I know
I found the closest thing to heaven
I found myself

When I found you
I found the closest thing to heaven
That's in you

When I found you - 2/2

I found the deepest love I knew
Oooo yeah, Oh I believe, yes its true
I found myself when I found you, you
