

## Movies - 1/1

**Interprété par Alien Ant Farm.**

At slow speed we all seem focused  
In motion we seem wrong  
In summer we can taste the rain

[Chorus:]

I want you to be free  
Don't worry about me  
And just like the movies  
We play out our last scene

Two can play this game  
We both want power  
In winter we can taste the pain

In our short years, we come long way  
To treat it bad and throw away

[Chorus]

You won't cry, I won't scream

In our short years we come long way  
To treat it bad and throw away  
And if we make a little space  
A science fiction showcase  
In our short film, a love disgrace  
Dream a scene to brighten face  
In our short years we come long way  
To treat it bad, just to throw it away

[Chorus]
