

# Let your body talk - 1/1

**Interprété par Daddy DJ.**

Part 1

The sun is going down  
Day slowly fades  
Another week has gone  
Slipped away

Tension's flowing out from you  
Like from a spring  
You free your mind , you free your soul  
The calm sinks in

You got to let your body talk

Part 2

Grab your phone, call some friends  
Ask if they are free to go out  
The whole night

Have a light dinner, step in the shower  
Dress yourself a way in which you'll feel all right  
Not too tight

Down in the subway, you watch the people there  
Heading toward the spot where they'll find a rest  
Or romance

You jump off the train, you cross a traffic jam  
You pass through the club doors where the music is living  
The people are flying, the DJ's ripping  
You got to let your body talk
