

# I will survive - 1/1

**Interprété par Enrique Iglesias.**

You like to think that you'll be the only one who understands me with it  
And you tell everyone that I can't live without you even for one day  
But who gave you the right to talk about the way I feel so deep inside  
Now I realize you were never mine, you were never right  
Baby you will find  
I will survive  
I'm gonna make it through  
Just give me time  
I will get over you  
I will survive  
No matter what you do  
Just need to see I will get over you  
Cause baby we'll survive  
Cause baby we'll survive

What makes you think that I don't see the way you made a fool of me  
To laugh behind my back ???  
Now I realize you were never mine, we were never right  
Baby you will find  
I will survive  
I'm gonna make it through  
Just give me time  
I will get over you  
I will survive  
No matter what you do  
Just need to see I will get over you  
Cause baby we'll survive

I will survive  
I'm gonna make it through  
I will survive  
I will get over you  
Cause baby we'll survive
