

## Song for the leftlovers - 1/2

## Interprété par A-camp.

CD A-Camp

The night s on the edge now Hanging low against the tide The world is at it's best now When the loveless ones collide

It's a long night
A beautiful night
And we're the first leftovers of the night

I'm thinking 'bout the last times And the people I had to hurt I wonder why they couldn't touch And why I never gave it up

You weren't hard to find You didn't run and hide We were the first leftovers of the night Hide of the night

The silence is a burden
When you don't really want to talk
I'm trying really hard now
To set alight my sleepy heart

We made a pretty sight It seems we've found some pride In being the first leftovers of the night Hide of the night, i-ight

And everything is alright now Everything is alright now Everything is alright

You're not what I was after But I'm happy with what I found To dream of new beginnings When the end is all around

I think you're alright
You qualify
For being my supernova
It's a gambling life
A lonely strife
But I think we're the best leftovers of the night
Hide of the night, hi-hide

## Song for the leftlovers - 2/2

And everything is alright now Oh everything is alright now Everything is alright
